Key Practice Areas

Litigation

Trial skills matter — even in a world where few disputes ever see the inside of a courtroom. PraelLegal Uzbekistan has built a reputation as a trial lawyers' firm. From compliance counselling to mediation, settlement negotiation, motion practice, trial, and appeal, PraelLegal Uzbekistan offers a full-service litigation practice capable of meeting our clients' business and legal objectives, whatever they may be. Our litigators are some of the most seasoned in the industry, bringing extensive courtroom experience to every matter the firm handles. This experience helps us spot outcome-determinative legal issues early and enables us to prepare compelling arguments that support our clients' positions. What's more, our long history of taking cases to trial and winning gives our clients tremendous settlement leverage with their adversaries, as well as confidence in a successful outcome if and when they go to trial. PraelLegal Uzbekistan's litigation approaches every case with strategic focus, unrelenting advocacy, and intensive preparation, and also enjoys a team of more than 500 litigators on three continents. That is why some of the world's largest companies and financial institutions have asked us to represent them in their most difficult litigation matters. The firm's litigation prowess extends even beyond the courtroom.

ADR and Mediation

PraelLegal Uzbekistan's world-class International Arbitration Practice assists clients with a large value, complex, and high-profile commercial and investment-based disputes in virtually every major arbitration center. The team of PraelLegal Uzbekistan has significant experience in representing its Clients at the international level, in particular, before arbitration courts established in accordance with the rules of various arbitration institutions such as ICC (France), LCIA (UK), LCAM (UK), VIAC (Austria), BAIAC (Singapore) as well as experience in alternative forms of dispute resolution. This is what distinguishes our Firm from other law firms in Uzbekistan. Our team has successfully succeeded in both procedural and substantive matters of contracts in international arbitration proceedings. In addition, if the need arises, the team can offer its services in the peaceful resolution of disputes. Thanks to PraelLegal Uzbekistan's networked relationships, our Clients have access to lawyers from around the world with experience in dispute resolution when needed.

Investments

In recent years, there has been a tendency in Uzbekistan for the development of legislative acts by the government aimed at strengthening the protection and attraction of foreign investors and foreign capital to the country. Today, foreign investors are provided with a number of benefits and preferences, which makes doing business in Uzbekistan more profitable. Resolutions of the Ministry of Finance, the State Tax Committee, and the Ministry of Economy of the Republic of Uzbekistan provide high protection and inviolability of the interests of foreign investors and reduce taxes. The PraelLegal Uzbekistan investment law team has extensive experience in protecting and representing the interests of foreign investors.

Tax Law

The experience of the PraelLegal Uzbekistan team allows you to resolve a situation of any complexity associated with tax authorities. In addition, we use an integrated approach to conflict resolution, which gives a quick positive result in favour of the client. It is for this task that our tax lawyers work closely with accountants, auditors and other professionals. We allow our clients to receive advice on how to use the tax incentives available for their business and how to properly apply one or another tax regime.

M&A and Due Diligence

PraelLegal Uzbekistan's corporate transactions group operates a robust national and international M&A practice. With a diverse practice, we represent purchasers and sellers, and couple deal experience with a focused legal project management process. This allows us to spend less time on process-related tasks and drafting, and more time focusing on the key issues for the deal. No matter the size of the deal, clients can count on having skilled lawyers lead the team and see the deal through. Our lawyers represent many of the world's most active companies in their M&A transactions, and we also work with closely held companies for whom an M&A transaction is not a frequent event. We invest the time to understand the client's specific objectives and priorities. Based on these goals, we collaborate with other key deal team members, such as accountants and investment bankers, to identify key structural and economic issues and deal terms.

Banking & Finance

Banking is the cornerstone of each state's economy, and in its turn, a financial aspect is present in any transaction. Therefore, banking and finance law can be characterized as one of the most dynamically developing fields of modern law. Our law firm has rich experience in providing legal assistance to such banking institutions as JSC Bank Agrobank, JSC KDB Bank Uzbekistan, and JSC Kapitalbank as well.

Capital markets law, being a field of practice for lawyers who represent organizations issuing securities to raise capital, owners of securities seeking to sell their securities, or banks and investment banks that sign and sell such securities, require lawyers to work primarily with operations related to the issuance of debt or equity securities, either for the public or for a group of investors. Our dedicated lawyers in the capital markets conduct an examination of the issuer of securities, develop a prospectus and other disclosing documents describing the issuer and its securities for potential investors, discuss agreements between the issuer and its consultants and conduct transactions through regulatory barriers. We grant effective advice on disclosure, thanks to such opportunities provided by our international Law firm as effective advice on disclosure requires extensive experience working with issuers who have faced difficult disclosure issues, as well as the ability to contact lawyers in other areas of practice to help analyze client issues that require specialized knowledge.

Insurance

PraeLegal Uzbekistan Insurance practice team is unique in its depth and breadth of experience. The team is composed of lawyers, who specialize in defined aspects of insurance coverage law and who have gained excellent nationwide recognition in those areas. As the industry in Uzbekistan continues to acclimatize to changes in its regulatory environment and cope with ongoing macroeconomic uncertainty, we provide our Clients with top-class legal and commercial advice.

Intellectual Property

PraeLegal Uzbekistan's Intellectual Property Practice is one of the most active and highly regarded in the country. Our success has been driven by a simple strategy: attract the best trial lawyers and support them with strong technical lawyers.

Those teams get the best results. PraeLegal Uzbekistan's IP practice is unique in that regardless of the venue, discipline, technology, industry, client, or case, we have a strong story to tell and can offer first-chair trial attorneys who have the right mix of experience and credentials. Our lawyers understand that intellectual property litigation is a means of establishing a client's future competitive position rather than simply resolving a dispute that arises out of past conduct, and we have substantial experience providing assistance to clients who use intellectual property as part of their business strategy. However, what is most striking about our practice is that we are at the forefront of not just the high-tech, biotech, pharmaceutical, and new media industries, and not just patent litigation, copyright, trademark, and privacy and advertising law, but all of the above. Whether delivering million-dollar patent verdicts, paving new ground in cutting-edge copyright issues, or prevailing before the Courts, PraeLegal Uzbekistan's lawyers are dominating the landscape of intellectual property law.

Real Estate & Construction

Today's dynamic real estate market calls for lawyers who bring a broad platform of skills and experience to the table. PraeLegal Uzbekistan's Real Estate & Construction Practice offers institutional knowledge across an extensive array of real estate transactions. Collaborating with our corporate, tax, environmental, and litigation practices, we assist purchasers, sellers, developers, borrowers, and lenders in the acquisition, financing, sale, restructuring, development, and leasing of commercial, industrial, and multi-family properties. Our client base includes major Uzbek and international corporations, financial institutions, real estate funds, real estate investment trusts, insurance companies, and other major real estate market participants.

Corporate Law

PraeLegal Uzbekistan, being one of the major international law firms, provides legal assistance and support for foreigners in establishing and operating legal entities in Uzbekistan. Our Corporate Department is involved in various corporate transactions, including, but not limited to reorganizations, mergers, acquisitions, joint venture disposals, etc. and has solid experience in related disputes settlements. Our team of corporate lawyers had many occasions to participate in the settlement of disputes between the parties of the established company, allowing our clients to apply the skills to avoid or anticipate all potential disputes. Hence, the client will not even need a lawyer to resolve the arisen dispute in court, since the documents drafted by our experts exclude all the possible conflicts.

Who We Are

OUR STRENGTH

We offer services of superb quality based on our accumulated extensive and profound knowledge and experience. We know how to proceed with our business, absorbing all best practices in the world as our own while respecting locally prevailing value systems.

ATTENTION TO DETAILS

Our lawyers can pick up on small things in both written documents and when people are verbally communicating since allowing a small error to slip through can change the meaning of a contract, causing a lot of problems.

CLIENT SERVICE

Honestly and responsibly serving a client is crucial to success in the client-focused legal industry. Our professionals master client development skills as well as customer service skills.

THE EXPERIENCE TO WIN

We have experienced being both on the plaintiff's and defendant's sides in different cases so we have analyzed all sides of a legal issue.

AN ENTREPRENEURIAL INSTINCT

Business models are changing and developing more towards improving the entrepreneurial side of law firms. Our lawyers are inquisitive and they always look out for new opportunities and chances to make business.

TEAMWORK

Our lawyers master teamwork skills including collaborating with others to reach common goals, as well as coordinating and sharing information and knowledge, team up with co-counsel, experts, and vendors to deliver services.

PRO BONO

PraeLegal Uzbekistan is among the few law firms that are trying to introduce the concept of Pro Bono among Uzbekistan's legal community. We also focus is on helping economically disadvantaged individuals and families in the communities where we live and work. We also provide legal services to nonprofit and nongovernmental organizations whose mission is to serve vulnerable individuals and communities. Our lawyers use their time and skills to ensure access to justice for people who otherwise could not afford it.

We are working pro bono to promote the Rule of Law by strengthening civil society and building capacity and supporting Access to Justice. We also work to create and develop an environment that encourages and supports lawyers to provide legal services to the underprivileged and underserved in our country.

Requirements to qualify for Pro Bono service:

- Low-income families with many children or families with lower-than-average economic income who are in a difficult situation;
- Families who lost their breadwinner, single mothers;
- Non-profit organizations engaged in charity, educational, or sports activities that bring public benefit to society;
- Ethnic minorities whose rights have been violated;
- Handicapped people or war veterans who are unable to pay for legal services;
- Orphaned children in need of legal protection.

Gas Supply Contract – Value 88,000,000.00 USD

PraeLegal Uzbekistan has successfully finished another major project in the Oil & Gas industry. The expert team has completed due diligence project on a gas supply contract worth more than 88 million USD. In accordance with the requirements put by the client, the multidisciplinary due diligence and legal analysis team has been formed, including financial and technical experts (in addition to legal experts) in the shortest timeframe. The legal due diligence covered an investigation of the following areas: corporate, commercial contracts, employment, intellectual property, environmental, health and safety, regulatory compliance, competition, litigation, property and tax. The team has also provided a framework to enable an understanding of the jurisdiction in which the companies are operating as well as the contract is enforced. The contract was the first of its kind in Uzbekistan, involving the import of natural gas by a private company for the first time in accordance with recent reforms to legislations (Presidential Decree – 6155 from 03.07.2021) on de-monopolization of the energy sector.

Oil Project – Value over 80,000,000 USD annually

PraeLegal Uzbekistan has been providing comprehensive legal support in concluding several oil import transactions in Uzbekistan. In this particular project, the firm represented the interests of a foreign oil company in Uzbekistan. As part of the project, our team of Oil & Gas, Corporate, Customs and Due Diligence Lawyers have managed the project from A to Z. The first-of-its-kind Supply Contract of crude oil in the amount of 73,300 barrels monthly was drafted and signed. As the project involved major corporations, comprehensive due diligence has been conducted as well as the collection and analysis of documents in the framework of the conclusion of a foreign trade contract for the supply of crude oil;

The team also provided constant legal advice on the unforeseen issues of concluding a foreign trade contract for the supply of crude oil, future risks, security, insurance as well as potential international dispute resolution.

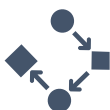

Tashkent City Project – Value Confidential

PraeLegal Uzbekistan supervised the market entrance of a major Development Company in Uzbekistan. The company has been involved in the biggest development in the country ever since.

The team has supervised and assisted in the agreement of the Development project which was adopted in accordance with the legislation of the Republic of Uzbekistan. The series of contracts were adapted not just to the country's ever-changing construction legislations but involved the requirements of the development company and project owners. The development company is one of the first foreign companies in Uzbekistan to provide state-of-the-art development services in accordance with the latest practices in the industry.

Amount in dispute: Confidential.

Time Management

The Law Firm monitors the work of the staff and records their working hours using a time-tracking application.

This application lists all the tasks that can easily and clearly be observed and checked as well as monitors the time spent on each project. The application is configured for real-time time tracking, as opposed to the usual "guessing" the number of hours devoted to each task.

HOW DOES IT WORK?

As soon as work begins on a specific project, the function of the time tracker turns on and turns off upon completion. In the meantime, the application monitors all actions and also takes screenshots at unexpected intervals.

Upon completion of the workflow, the program provides a report for tracking how many hours/minutes were spent ineffectively and what software/services were used at these moments.
